

ROBERTO PRIMICERI, WOOD DESIGNER & ARTISAN

ROBERTO PRIMICERI

Artist, artisan and designer in wood.

A COLLECTION OF CONSCIOUS DESIGN

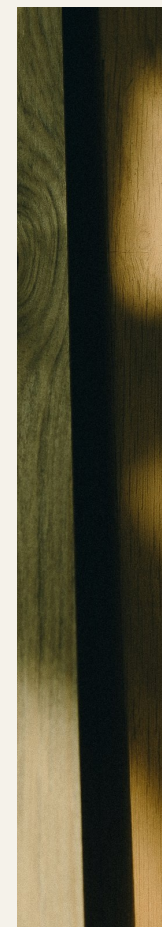

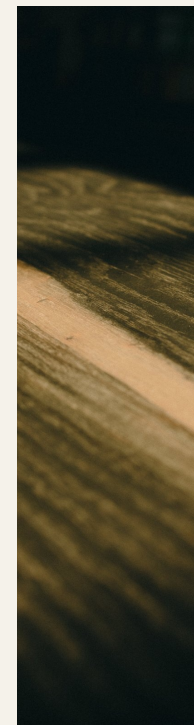

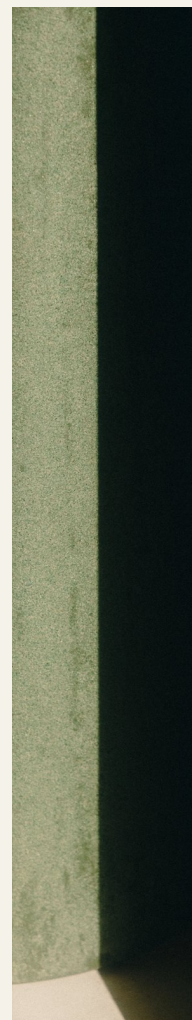

ROBERTOPRIMICERI.COM

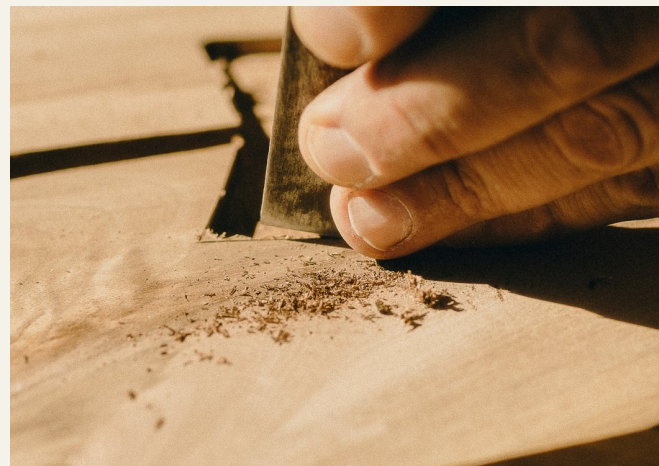

A dialogue with *the living material.*

Roberto Primiceri is an artist, artisan and designer whose work is rooted in a personal, intimate relationship with materials.

He reads the material, its grain, its weight, its quiet potential, and shapes it with intention. His work lives where the hand meets nature, every joint considered, nothing left to excess.

Conceived and crafted in his atelier, Made in Italy.

02, THE CRAFT

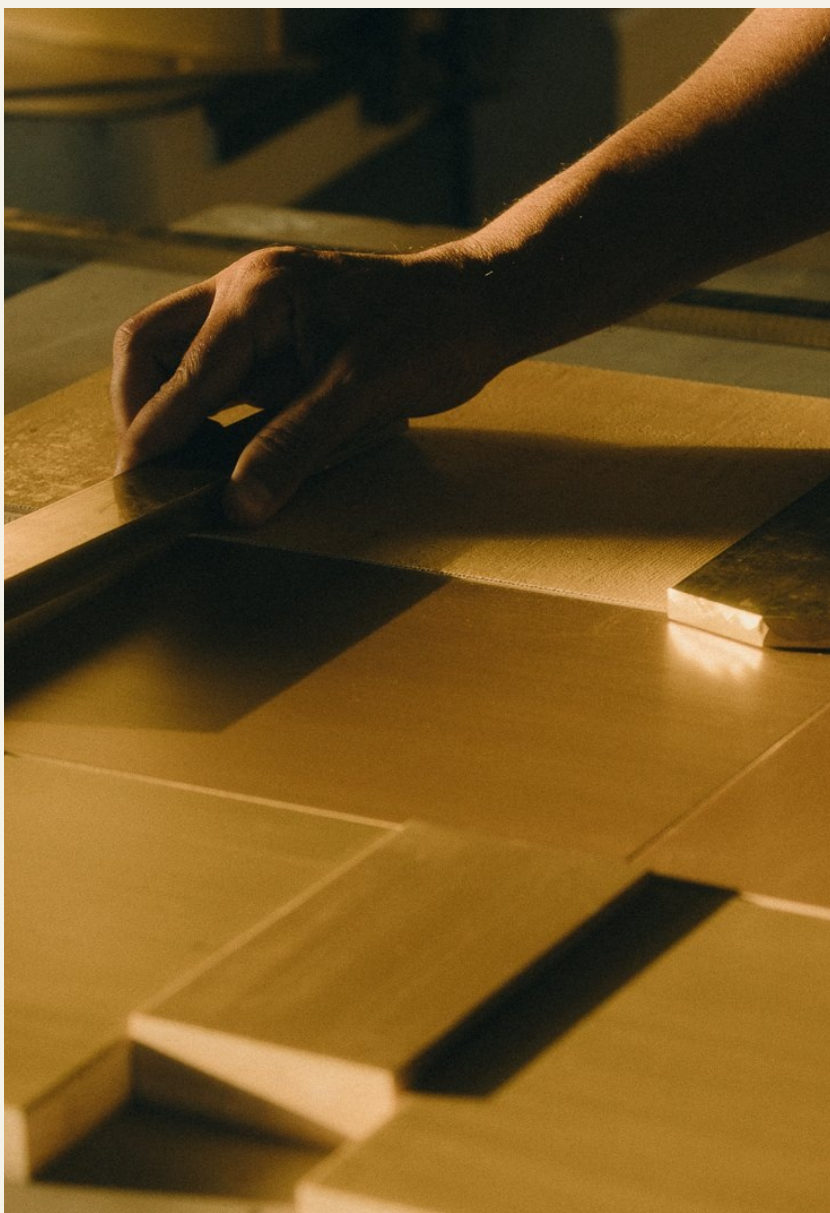

Forms that honour *the material.*

ROBERTO PRIMICERI

Each creation begins with a deep listening, a dialogue that unfolds into unique pieces, where form honours the essence of the material itself.

Every object is crafted by hand, without exception, so that no two pieces are ever quite alike.

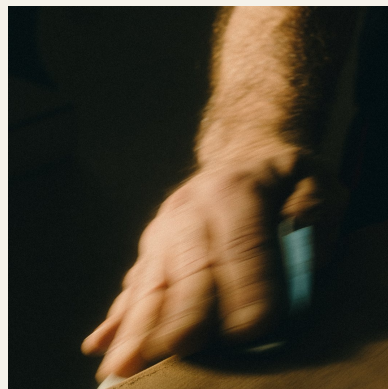

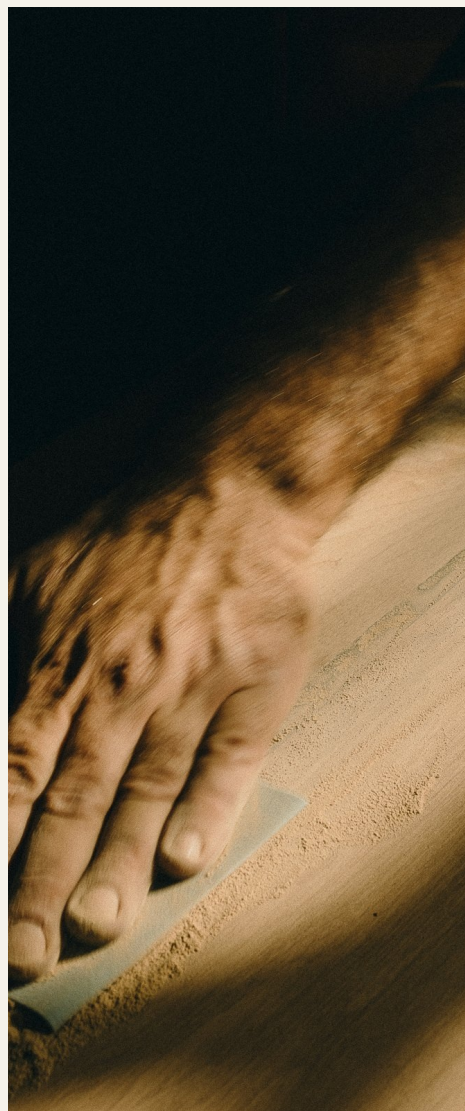

THE CRAFT

03, THE BALANCE

Lightness held *by solidity.*

The work lives in the balance between lightness and solidity. Each creation is a quiet, discreet luxury, born from a profound respect for nature, and a constant focus on quality.

Made slowly,
made by hand.

What takes shape here asks for time,
and care. Patience, dedication, and a
quiet kind of love.

05, THE DETAIL

The difference *lives in the detail.*

It is in the details that the hand of the artisan is felt. A joint that closes cleanly, an edge softened, a finish judged by eye and touch.

These are the things that machines pass over and that time rewards. Nothing is rushed, nothing is hidden, and care is given to what others would never notice.

THE DETAIL

06, LIGHT & COLOUR

A study in *colour and light.*

Surfaces, tones and shadow are explored day by day. There is no fixed palette, each finish can be tailored to its owner, and to the room that will hold it.

An ever changing range of natural, tactile materials, curated for each commission.

07, DISCREET LUXURY

Luxury, measured in *meaning, not excess.*

Objects that carry intrinsic value, connecting the past, the present and the future.
Not excess, but authenticity, crafted with care, with passion, and with respect for nature.

Designed and handmade in the atelier, Made in Italy.
